Please tell us if you are not happy

At Bulb, we strive to give you the best member experience possible. If we make a mistake or if you think we haven't done the right thing, please let us know so we can put things right.

If you aren't happy, we would love the opportunity to speak with you as soon as possible, so call us on [0300 30 30 635](tel:03003030635) and let us know you are not happy or email complaints@bulb.co.uk.

We will do everything we can to solve the problem within five business days.

Impartial advice

The Citizens Advice consumer service provides free confidential impartial advice on consumer issues and may be able to assist you during a complaint process. Visit citizensadvice.org.uk or call their helpline on [0808 223 1133](tel:08082231133).

If we still haven't met your expectations, the Energy Ombudsman can help.

If after 8 weeks your complaint is still not resolved or if we have issued you a deadlock letter (a letter which details what has happened and what we have suggested) you may get in touch with The Energy Ombudsman.

The Energy Ombudsman is a free, independent organisation that works to resolve issues between energy suppliers and members. Before going to the Ombudsman, you need to have given us an opportunity to resolve the issue first. Following this review, we are legally required to comply with their decision.

Gas emergency

Smell gas or think there might be a gas leak?

Call 0800 111 999 (24hrs)

In the event you can smell gas, immediately turn off the gas at the meter control valve.

Also ensure you do not expose the gas to any heat or flames. That means no smoking or lighting matches! Where possible you should also open any doors and windows to allow the gas to ventilate.

Electricity supply faults

If you have problems with your electricity supply and you have already checked you haven't blown a fuse, call **105**

Your Electricity Distributor is UK Power Networks. Their phone number is 0845 601 4516.

*Explaining your gas usage

Not all gas is created equal. We convert gas units from your meter into kWh to make sure the energy output of your gas is priced consistently. We do this using the following formula:

Meter units used	137
Volume conversion factor	x 1.00
Metric units	= 137
Volume correction	x 1.02264
Calorific value	x 39.1
Convert to kWh	÷ 3.6
Energy used	1522 kWh
