ECMM455 Python Worksheet 13: Code Academy IV - The Final Chapter

Prof Hywel Williams

September 12, 2019

1 Aims

- Complete the next and final set of Code Academy tutorials for this section of the course

2 Introduction

This is the last worksheet that will refer you to Code Academy. After completing the sections specified in this sheet, you will have completed the components of the Code Academy course that are relevant to this module.

You are encouraged to complete the remaining sections of the Code Academy course in your own time.

3 So far...

In previous worksheets, you should have completed the sections of the Code Academy Python course titled:

- Python Syntax

- Strings & Console Output

- Conditionals & Control Flow

- File Input/Output

- Lists and Dictionaries

Make sure you have completed these sections before completing the exercises below.

4 Exercises

Complete the sections titled:

- Functions

- Lists and Functions
